CAREER OBJECTIVE

Final-year B.Tech student in Computer Science & Engineering (AI-ML) with hands-on experience in NLP, computer vision, and multimodal AI systems. Passionate about building intelligent applications, solving real-world problems using AI/ML, and contributing to innovative projects while continuously learning and growing in a dynamic tech environment.

EDUCATION

Prasad V Potluri Siddhartha Institute of Technology, Bachelor of Technology (B. Tech) in Computer Science and Engineering (AI-ML) Sept 2022 – Present

- GPA: 8.57/10.0

EXPERIENCE

AI Developer Intern – Flipnow Solutions, Hyderabad July 2025 – Sep 2025

- Built a GenAI-powered skill development platform leveraging IBM Granite models (Hugging Face) for intelligent content generation and learning workflows.
- Mentored 1,000+ students in building AI/ML and Generative AI applications through hands-on guidance, workshops, and hackathons across multiple colleges.

AI/ML Intern, HCL Tech – Remote Apr 2025 – Aug 2025

- Built end-to-end data pipelines to ingest unstructured resumes, perform text preprocessing, extract semantic features, and transform outputs into structured analytical datasets.
- Engineered a multimodal candidate assessment system integrating facial emotion recognition, speech feature analysis, and sentiment scoring to automate candidate screening.
- Translated complex model outputs into recruiter-ready metrics and actionable insights, significantly reducing manual evaluation effort and decision time.

PROJECTS

AutoGrader: ML and NLP based Handwritten exam papers Evaluation Github

- Built an end-to-end ML & NLP system that evaluates handwritten exam answers with >90% accuracy using OCR, SBERT, and cross-encoders for semantic similarity scoring.
- Tech Stack:** Python, Flask, React, OCR, Scikit-learn, MongoDB

AI Resume Analysis System Github

- Built an end-to-end multimodal AI platform that analyzes resumes and interviews, extracting structured insights from text, audio, and video using NLP and computer vision, with modular, production-ready pipelines.
- Tech Stack:** Flask, Scikit-learn, BERT, React.js, MongoDB

SKILLS

Programming: Python, Java, SQL

ML/DL: Scikit-learn, TensorFlow, NLP, Computer Vision, LangGraph (basic)

Web Development: HTML, CSS, JavaScript, React.js, Flask, REST APIs.

Database: MySQL, MongoDB

Version Control: Git, GitHub

Core CS: Data Structures & Algorithms, OOP, DBMS

Achievements & Certifications

- Certifications:** Cisco Data Analytics, AWS ML Foundations, Google Cloud Foundations, Oracle Gen AI Professional
- IEEE Publication:** Published a research paper titled “AutoGrader: ML NLP-Based Handwritten Exam Evaluation System” in IEEE Xplore (ICWITE 2025). DOI: 10.1109/ICWITE64848.2025.11307133 - [Link]
- Hackathons:** Won 4 national-level hackathons demonstrating critical thinking, problem solving, and collaboration in fast-paced environments.
