Profile

With a fervent dedication to learning and growth, I am a proactive student driven by a passion for hands-on experiences and expanding my skill set. My keen interest lies in spearheading innovative projects, adeptly navigating challenges, and fostering synergy within dynamic team environments. Through effective communication and a solution-oriented mindset, I strive to contribute meaningfully while embracing opportunities for personal and professional development.

Education

Bachelor of Technology in Computer Science and Engineering 2022 – Present
Velagapudi Ramakrishna Siddhartha Engineering College **CGPA: 9.36/10**

Intermediate (Mathematics, Physics, Chemistry) 2020 – 2022
Kakaraparti Bhavanarayana Junior College **Score: 98.4%**

Technical Projects

Library Management System ([GitHub Repository](#)) *Java EE, JSP/Servlets, Oracle, Tomcat 9*

- Engineered an enterprise library management web application following MVC architecture with secure authentication, book catalog management, and automated lending workflows.
- Implemented JDBC-based data persistence layer with normalized relational schema, foreign key relationships, and sequence-based auto-incrementing identifiers.
- Designed modern responsive user interface and deployed on Apache Tomcat with session management and comprehensive transaction logging.

Real-Time TCP Communication System ([GitHub Repository](#)) *Core Java, Socket Programming, Networking*

- Developed a Java-based client-server system utilizing TCP sockets for reliable, bidirectional communication between networked applications with real-time message exchange.
- Designed efficient I/O stream handling and connection control mechanisms, demonstrating proficiency in Java networking APIs and concurrent data processing.

FoodBridge – Automating food donation and distribution ([GitHub Repository](#)) *Django, Bootstrap, MySQL*

- Built a web platform that bridges food donors with verified NGOs and orphanages, enabling end-to-end donation management, live status tracking, and reducing food waste through efficient resource redistribution.
- Engineered a secure backend using Django with role-based authentication for donors, NGOs, and administrators, incorporating NGO verification workflows and MySQL-based data storage to ensure transaction integrity.
- Designed an intuitive and mobile-responsive user interface with Bootstrap to provide seamless accessibility and a user-friendly experience across various devices for both donors and receivers.

Lumbar Spine Degenerative Disease Classification ([GitHub Repository](#)) *Python, CNN, Deep Learning*

- Trained convolutional neural networks on annotated lumbar spine MRI datasets for multi-label classification of degenerative conditions, achieving 85% accuracy.
- Applied image preprocessing and augmentation to improve detection performance across intervertebral disc levels.
- Presented research findings at the International Conference on Intelligent Communication Networks and Computational Techniques (ICICNCT-2025).

Professional Experience

Mobile Application Developer May 2025 – July 2025
DeepMediQ Remote

- Developed the frontend of DeepMediQ, a cross-platform mobile application using React Native to interface with a health-focused AI chatbot.
- Designed intuitive UI components for smooth user interaction, enabling users to input medical queries and receive detailed, AI-generated responses.
- Integrated the mobile interface with a backend chatbot supporting DeepMediQ, an AI-powered health assistant by a US-based startup.

Skills

Programming Languages: Python, C, C++, Java, Javascript

Web Development: HTML, CSS, React, Node.js, JSP, Servlets

Frameworks & Tools: Django, Git, AWS

Databases: Oracle (SQL)

Development Tools: Visual Studio Code, Google Colab, Android Studio

Professional Skills: Project Leadership, Technical Problem-Solving, Team Collaboration, Attention to detail

Relevant Courses

Data Structures and Algorithms, Database Management Systems, Computer Networks, Operating Systems, Software Engineering, Advanced Java Programming, Machine Learning, Cryptography

Achievements

- Awarded the Reliance Foundation Scholarship (2022-2026), receiving Rs. 50,000 annually for four years, in recognition of academic excellence and outstanding performance.
- Led team to top 3 position in SIH Internal Hackathon 2024.
- Solved 1000+ algorithmic problems participated in 70+ coding contests on various coding platformss.
- Winner of two consecutive coding events organized by the ACM chapter, VRSEC.
- Secured Rank 567 out of 1,94,752 candidates in AP EAPCET 2022, placing in the top 0.3% statewide.
- Achieved a score of 96.79% in the Joint Entrance Examination (IIT-JEE 2022) and received 10 medals for academic excellence during intermediate studies.

Certifications

- Programming in Modern C++ - NPTEL (Score-77/100 Top 2%)
- AWS Cloud Foundations - AWS Academy
- SQL Proficiency Certification - Hackerrank
- Java Foundation Certification - Infosys Springboard
- Data Structures and Algorithms using Java - Infosys Springboard
- Python Essentials - Cisco Networking Academy
- Design Technology and Innovation - NPTEL

Coding Profiles

- **LeetCode:** leetcode.com/SaiUmeshGupta
- **CodeChef:** codechef.com/users/saiumeshgupta5
- **HackerRank:** hackerrank.com/umeshgupta_05

Positions of Responsibility

- **NSS Volunteer – VRSEC:** Participated in community outreach initiatives, environmental awareness drives, and campus volunteering programs under the National Service Scheme.
- **AI Hackathon Volunteer – VRSEC:** Played a key role in organizing and managing an AI-focused hackathon with 1000+ participants, ensuring smooth logistics, registrations, and participant support.
- **GSSoC Contributor – GirlScript Summer of Code 2025:** Selected as an open-source contributor and currently exploring repositories and preparing to make impactful contributions during the program.

Languages

English	Professional Working Proficiency
Telugu	Native Proficiency
Hindi	Elementary Proficiency

Declaration

I affirm that the information provided above is accurate and truthful to the best of my knowledge and belief.

Place: Vijayawada

Date: November 05, 2025
